# About the Marian University Healthcare Camp

Healthcare Camp is a multi-day program designed to provide students with hands-on experience in various healthcare settings. The program includes a variety of activities, including:

## Small Group Discussions

Students will engage in small group discussions with healthcare professionals and peers. These discussions will focus on current issues in the healthcare industry and provide an opportunity for students to share their own experiences and perspectives.

## Healthcare Student Mentoring

Students will be paired with healthcare professionals for mentoring. This program will provide students with a valuable opportunity to learn from experienced professionals and gain insight into the healthcare industry.

# About the Nursing Program

At Marian University, we are committed to providing a high-quality nursing education that prepares our graduates to meet the needs of our communities. Our nursing program is designed to provide students with the knowledge, skills, and attitudes necessary to become successful nurses. We offer a variety of nursing programs, including a Bachelor of Science in Nursing (BSN) and a Master of Science in Nursing (MSN). Our faculty consists of experienced nurses who bring a wealth of clinical knowledge and expertise to the classroom. We also provide our students with hands-on clinical experiences in a variety of settings, including hospitals, long-term care facilities, and community health centers. Our graduates are well-prepared to enter the nursing profession and make a positive impact on the lives of their patients.

# About the ESS Program

The ESS Program is a unique opportunity for students to gain hands-on experience in the field of exercise science. This program is designed to provide students with the knowledge and skills necessary to become successful in the fitness industry. Students will learn about the latest trends in exercise science and how to apply this knowledge in a practical setting. The program is open to all students, regardless of their major, and is a great way to explore your interests in the fitness industry. For more information, please visit [marian.edu/ess](http://marian.edu/ess).

# About the Occupational and Physical Therapy Programs

Occupational therapy (OT) is a profession that helps people who have physical, mental, or cognitive disabilities to live as independently as possible. Occupational therapists work with individuals of all ages and abilities to assess their needs and develop strategies to improve their functional skills. They may work in hospitals, clinics, schools, or community settings. Occupational therapists help people with a wide range of conditions, including stroke, spinal cord injury, arthritis, and mental health issues. They use a variety of techniques, such as exercises, adaptive equipment, and environmental modifications, to help their clients achieve their goals. Occupational therapists also provide education and support to families and caregivers. The American Occupational Therapy Association (AOTA) is the national organization for occupational therapists. For more information about the OT profession, visit [aota.org](http://aota.org).

[aota.org/career/become-an-ot-ota](http://aota.org/career/become-an-ot-ota)

Physical therapy (PT) is a profession that helps people who have physical disabilities or injuries to improve their mobility and function. Physical therapists work with individuals of all ages and abilities to assess their needs and develop strategies to improve their physical health. They may work in hospitals, clinics, schools, or community settings. Physical therapists help people with a wide range of conditions, including stroke, spinal cord injury, arthritis, and sports injuries. They use a variety of techniques, such as exercises, manual therapy, and modalities, to help their clients achieve their goals. Physical therapists also provide education and support to families and caregivers. The American Physical Therapy Association (APTA) is the national organization for physical therapists. For more information about the PT profession, visit [apta.org](http://apta.org).
